

# U.S. VIRGIN ISLANDS PE COMPLIANCE GUIDE

**ELEVATING PHYSICAL EDUCATION ACROSS U.S.  
VIRGIN ISLANDS SCHOOLS WITH POCKET P.E.™**

## ANNUAL MANDATED INSTRUCTION HOURS

**U.S. Virgin Islands Policy:** Physical education is required at all levels of the territory's school system, though specific weekly instruction minute minimums are not detailed for elementary students. Instead, regulations dictate that a structured sport program incorporating every eligible student must be explicitly built into each campus curriculum (V.I. Code tit. 3, § 321).

**Pocket PE Solution:** Pocket PE functions as an on-demand active learning toolkit that bridges scheduling gaps without pre-determined time boundaries. The platform equips general classroom teachers with high-energy movement breaks and PE lessons, allowing schools to easily build structured athletic opportunities directly into regular school schedules.

## PERFORMANCE STANDARDS ALIGNMENT

**U.S. Virgin Islands Policy:** Every public and private school must follow a uniform, territory-wide physical education teaching manual (V.I. Code tit. 3, § 321[a]). Additionally, exceptional student-athletes who excel within these physical literacy guidelines can qualify for financial support through the territory's Gene Edmund Cerge Scholarship (V.I. Code tit. 17, § 190v).

**Pocket PE Solution:** Grounded in motor development research, Pocket PE features a modern digital curriculum delivered directly to any screen. The app provides a sequential blueprint for physical literacy, offering age-appropriate movement objectives and organized skill tracking that beautifully reinforces mandatory manual standards and helps identify exceptional student talent.

## STATE ENFORCEMENT, INCENTIVES, AND ACCOUNTABILITY

**U.S. Virgin Islands Policy:** Policy implementation falls to Local Education Agencies, with strict compliance monitoring overseen by the Virgin Islands Sports Commission alongside mandatory joint tracking between the Department of Education and Department of Health (V.I. Code tit. 3, § 321). No direct noncompliance fines are specified.

**Pocket PE Solution:** Pocket PE removes the administrative burden of cross-agency monitoring through automated data collection. Through our centralized Admin Web Portal, leaders gain direct oversight to monitor adoption and export clear reports detailing active minutes—providing an airtight documentation trail to satisfy commission audits and health agency reviews.
